china s rise has elicited envy admiration and fear among its neighbors although much has been written about this previous coverage portrays events as determined almost entirely by beijing such accounts minimize or ignore the other side of the equation namely what individuals corporate actors and governments in other countries do to attract shape exploit or deflect chinese involvement the new great game analyzes and explains how chinese policies and priorities interact with the goals and actions of other countries in the region to explore the reciprocal nature Guide of relations between china and countries in south and central asia the new great game employs numerous policy relevant lenses geography culture history resource endowments and levels of development this volume seeks to discover what has happened during the three decades of china s rise and why it happened as it did with the goal of deeper understanding of chinese and other national priorities and policies and of discerning patterns among countries and issues the greatgame the epic story behind today s headlines peter hopkirk s spellbinding account of the great imperial struggle for supremacy in central asoa has been hailed as essential reading with that era s legacy playing itself out today the great game between victorian britain and

tsarist russia was fought across desolate terrain from the caucasus to china over the lonely passes of the pammirs and karakoram in the blazing kerman and helmund deserts and through the caravan towns of the old silk road both powers scrambling to control access to the riches of india and the east when play first began the frontiers of russia and british india lay 2000 miles apart by the end this distance had shrunk to twenty miles at some points now in the vacuum left by the disintegration of the soviet union there is once again talk of russian soldiers dipping their toes in the indian ocean the washington post has said that every story peter hopkirk touches is totally engrossing in this gripping narrative he recounts a breathtaking tale of espionage and treachery through the actual experiences of its colorful characters based on meticulous scholarship and on the spot research this is the history at the core of today's geopolitics in the tradition of the prize a contemporary look at the history passion and politics of oil and gas resources and the struggle to control them using the concept of the great game that rudyard kipling immortalized in his novel kim kleveman argues that there is now a new great game in the region a modern variant of the nineteenth century clash of imperial ambitions of great britain and tsarist russia traveling thousands of miles from turkmenistan where statues of the country's leader are made of gold and line the thoroughfares to the afghan hindu kush kleveman met with the principal great game actors between kabul and moscow oil barons generals diplomats and warlords based on extensive research and travel in the caucasus the caspian and central asia the new great game is a verse thrilling travel narrative through one of the world's last unexplored frontiers and a savvy and incisive analysis of the power struggle for the world's remaining energy resources kleveman can take credit for a book that is essential for those seeking as many views as possible on this complicated moment in history the seattle times the struggle between russia and great britain over central asia in the nineteenth century was the original great game but in the past quarter century a new great game has emerged pitting america against a newly aggressive russia and a resource hungry china all struggling for influence over one of the volatile areas in the world the long border region stretching from iran through pakistan to kashmir in great games local rules alexander cooley one of america's most respected central asia experts explores the dynamics of the new competition over the region since 9 11 all three great powers are pursuing important goals basing rights for the us access to natural resources for the chinese and increased political influence for the russians but central asian governments have proven themselves powerful forces in their own right establishing local rules that serve to fend off foreign involvement enrich themselves and reinforce their sovereign authority cooley's careful and surprising explanation of how small states interact with great powers in this vital region greatly advances our understanding of how world politics actually works in this contemporary era Verse there is a new great game being played in the buddhist himalayas between

india china and tibet which makes for a crucial third player together they are leveraging their influence with the buddhist communities to create strategic dominance with varying degrees of success china s buddhist diplomacy has focused on nepal and bhutan and the indian himalayan regions of ladakh arunachal pradesh and sikkim which have sizeable buddhist populations and are vulnerable to this influence the crisis in doklam brought into focus what will be one of the most difficult issues to unfold in the himalayas in Features future india s insufficient ability to deal with china only through the prism of military power if xi jinping who is known to be working towards a resolution of the tibet question succeeds and the dalai lama does indeed return to tibet how will it impact indian interests in the buddhist himalayas if the tibet issue remains unresolved how will india and china deal with and leverage the sectarian strife that is likely to intensify in a post dalai lama world the great game in the buddhist himalayas includes several unknown insights into the india china india tibet and china tibet relationships it reads like a geopolitical thriller taking the reader through the intricacies of reincarnation politics competing spheres of sacred influence and monastic and sectarian allegiances that will keep the himalayas on edge for years to come this is an important analysis of a key but little known region in the wider context of world politics central asia has huge oil and gas resources divided between five independent states kazakhstan kyrgyzstan tajikistan turkmenistan and uzbekistan each with their own problems and interests the region is energy rich and being situated between russia and china and close to afghanistan and other potential trouble spots it has acquired immense geo strategic importance concentrating on today s problems against a complex historical background the book draws on the author s extensive involvement with the region considerable attention is paid to central asian islam human rights issues in the region and central asia s place in the war against terrorism there

Guide was the great game the complex political machinations of victorian britain and tsarist russia in the nineteenth century and there was the new great game the conflict between the western powers and russia and china over central asia s oil and natural resources but there is another great game that s playing out in asia one that will significantly impact the course of global politics in great game east bertil lintner acknowledged as one of the foremost experts on insurgencies in the region unpacks the layers of complex political intrigues and spy networks that define the great game east a must read for anyone who wishes to understand the political future of a continent or the world for nearly a century the two most powerful nations on earth victorian britain and tsarist russia fought a secret war in the lonely passes and deserts of central asia those engaged in this shadowy struggle called it the great game a phrase immortalized by kipling when play first began the two rival empires lay nearly 2 000 miles apart by the end some russian outposts were within U 20 miles of india this classic book tells the story of the great game through the exploits of the young officers both british and russian

who risked their lives playing it disguised as holy men or native horse traders they mapped secret passes gathered intelligence and sought the allegiance of powerful khans some never returned the violent repercussions of the great game are still convulsing central asia today the work of explorers surveyors and spies in the race to conquer southern asia is vividly recounted in this history of british imperial cartography in the 19th century the british and russian empires were engaged in bitter rivalry for the acquisition of southern asian although india was the ultimate prize most of the intrigue and action took place along its northern frontier in afghanistan turkestan and tibet mapping the region and gaining knowledge of the enemy were crucial to the interests of both sides the great trigonometrical survey of india began in the 18th century with the aim of creating a detailed map of the subcontinent under the leadership of george everest whose name was later bestowed to the world's tallest mountain he mapped the great arc running from the country's southern tip to the himalayas much of the work was done by indian explorers known as pundits they were the first to reveal the mysteries of the forbidden city of lhasa and discover the true course of tibet's mighty tsangpo river these explorers performed essential information gathering for the british empire and filled in large portions of the map of asia their adventurous exploits are vividly recounted in mapping the great game since the 1950s china and india have been locked in a monumental battle for geopolitical supremacy chinese interest in the ethnic insurgencies in northeastern india the still unresolved issue of the mcMahon line the border established by the british imperial government and competition for strategic access to the indian ocean have given rise to tense gamesmanship political intrigue and rivalry between the two asian giants former far eastern economic review correspondent bertil lintner has drawn from his extensive personal interviews with insurgency leaders and civilians in remote tribal areas in northeastern india newly declassified intelligence reports and his many years of firsthand experience in asia to chronicle this ongoing struggle his history of the great game east is the first significant account of a regional conflict which has led to open warfare on several occasions most notably the sino india border war of 1962 and will have a major impact on global affairs in the decades ahead is there a new great game being played out in central asia boris rumer argues that the successor states to the russian and british empires have renewed the struggle for hegemony in the center of the asian continent as the world shifts from a bipolar to a multipolar focus the nations of asia search for new trans regional security arrangements more specifically the breakup of the soviet union and the creation of five central asian republics kazakhstan kyrgyzstan uzbekistan turkmenistan and tajikistan have complicated the security relations of the asian states see figure 1 but this new struggle is not a repeat of the 19th century great game by which the central asian states are but pawns of great powers as they jockey for power and position instead the central asian states themselves are active players in this struggle for

power in a unique geo strategic position to influence immediate neighbors russia china and iran and even beyond into the indian subcontinent once considered a backwater of little importance during the soviet era central asia could play a pivotal role in asian politics in the next decade enlargement and engagement set domestic political stability regional peace and the maturation of market economies in the five central asian states as policy goals of the united states the key to asian especially central asian regional security is economic a strong vibrant market economy is a prerequisite for political stability and the growth of democracy political stability however is itself a key element to economic development peace in the region especially in tajikistan afghanistan and kashmir must be gained before that economic takeoff can occur serious political economic ethnic religious and social challenges confront the five new central asian states in this quest for regional security how each state is able to confront and resolve these problems will determine its ability to emerge as a viable force in this struggle for influence in this new great game instability might seem to provide opportunities for states such as iran or china to expand their influence but the risks that such instability would ricochet back on them are too great thus iran pakistan india russia and china each seek in their own way to promote stability within central asia while expanding their own regional influence implications for american security from this struggle

Guide derive from the u s desire to prevent existing problems within central asia from escalating into crises that might engage iran pakistan india russia or china therefore we must first identify those centrifugal forces threatening central asia then review each of these states in turn to analyze their behavior identify their regional objectives and state policies in relation to central asia and evaluate the impact of central asia upon their own security doing so offers a better perspective on our own strategic interests in post cold war asia the great game in west asia examines the strategic competition between iran and turkey for power and influence in the south caucasus these neighbouring middle east powers have vied for supremacy and influence throughout the region and At especially in their immediate vicinity while bothcontending with ethnic heterogeneity within their own territories and across their borders turkey has long conceived of itself as not just a bridge between asia and europe but in more substantive terms as a central player in regional and global affairs if somewhat more modest in its publicstatements iran s parallel ambitions for strategic centrality and influence have only been masked by its own inarticulate foreign policy agendas and the repeated missteps of its revolutionary leaders but both have sought to deepen their regional influence and power and in the south caucasus eachhas achieved a modicum of success in fact as the contributions to this volume demonstrate as much of the world s attention has been diverted to conflicts and flashpoints near and far a new great game has been unravelling between iran and turkey in the south caucasus the dismantlement of the soviet union also brought about the liberation of 6 central

asian muslim republics Features kazakhstan kyrgyzstan tajikistan turkmenistan uzbekistan and azerbaijan this study offers an overview of the domestic problems in the region such as acute econ underdevelopment absence of econ and industrial communication and transport infrastructures and ecological problems also covers the activities of iran turkey saudi arabia and the u s it maintains that the resurgence of overly assertive if not aggressive tendencies of russia s foreign policy is a development likely to intensify the level of turbulence in an already troubled region in recent years the modern world has developed a brave new concept soft power it is the power of friendly persuasion rather than command and it invites nations to compete as they did in the nineteenth century to expand their sphere of influence as brands in a global marketplace in bloody foreigners and the last wolf robert winder explored the way britain was shaped first by migration and then by hidden geographical factors now in soft power he reveals the ways in which modern states are asserting themselves not through traditional realpolitik but through alternative means business language culture ideas sport education music even food the texture and values of history and daily life moving from west to east the book tells the story of soft power by exploring the varied ways in which it operates from an american sheriff in poland to an english garden in ravello a french vineyard in australia an asian restaurant in spain a chinese friendship hall in sudan the fact that fifty eight modern heads of state were educated in britain the student exchange that took a teenage deng xiaoping to a small town on the loire the way that japan could seduce the world with chic food and smart computer games now there may be a new twist in this great game with soft power s quiet ingredients education science trade cultural values and a new emphasis on shared mutual interest it may be the only force supple enough to tackle the challenges the future looks likely to pose T not least the slam the door reflexes pulling in the other direction this book looks at how china and india s growing interests in central asia disrupt the traditional russia u s great game at the heart of the old continent in the years to come both asian powers T are looking to redeploy their rivalry on the central asian and afghan theatres on a geopolitical but also political and economic level a fearless exacting portrait of a new battleground in the violent politics passion of oil central asia the caspian sea contains the world s largest amount of untapped oil gas resources using the concept of the great game kleveman argues that now a Features new great game rages in the region a modern variant of the 19th century clash of imperial ambitions of great britain tsarist russia only this time the stakes are raised desperate to wean itself from dependence on the powerful opec cartel the u s is now pitted in this struggle against russia china iran all competing for dominance of the caspian region its resources pipeline routes also involved are the brash new entrepreneurs who have taken control after the collapse of the soviet union this book deals with the 19th century anglo russian great U game played out on the territorial chessboard of eastern and north eastern parts of the

waning persian empire the great game itself has been written about extensively but never from a persian angle and from the point of view of the local players in that game looking at the territorial consequences of the great game for the local players is a unique approach which deserves a special place in the studies of history geography politics and geopolitics of the age of modernity this volume describes the unique development of central asia as defined by its landlocked geography particular attention is paid to the achievements and challenges of the region s Features post soviet economic and political transformation as well as to its relationship with the participants in the new great game russia china and the west located as it is in the geographical centre of booming asia and with the opportunity to become a key logistics bridge connecting the world s largest economies central asia is well placed for rapid development however the region faces a range of complex problems that are explained and analysed in the volume the eur asian powers that encircle central asia look certain to become the engines of global economic growth but how will this affect the region will central asia join the powerful locomotive of history or will it remain on the sidelines in the early 1980s springfield remanufacturing corporation src in springfield missouri was a near bankrupt division of international harvester today it s one of the most successful and competitive companies in the united states with a share price 3000 times what it was thirty years ago this miracle turnaround is all down to one man Verse jack stack and his revolutionary system of open book management in which every employee understands the company s key figures can act on them and has a real stake in the business in stack s own words when employees think act and feel like owners everybody wins as a management strategy the great game of business is so simple and effective that it s been taken up by companies from intel to harley davidson china s rise has elicited envy admiration and fear among its neighbors although much has been written about this previous coverage portrays events as determined almost entirely by beijing such accounts minimize or ignore the other side of the equation namely what individuals corporate actors and governments in other countries do to attract shape exploit or deflect chinese involvement the new great game analyzes and explains how chinese policies and priorities interact with the goals and actions of other countries in the region to explore the reciprocal nature of relations between china and countries in south and central asia the new great game employs numerous policy relevant lenses geography culture history resource endowments and levels of development this volume seeks to discover what has happened during the three decades of china s rise and why it happened as it did with the goal of deeper understanding of chinese T and other national priorities and policies and of discerning patterns among countries and issues this book looks at the emerging power dynamics in the indo pacific region and locates india and its interests within the overarching geostrategic framework with us and china emerging as leading players within the region the book analyses

the challenges to india s foreign policy in the face of new alliances counter alliances and great power equations that have formed after the cold war it discusses important issues such as china s strategic forays in the indian ocean the balance of power between countries india s act east opportunities russia s re engagement in the region the south china sea dispute india s maritime strategy and the conundrum of the quadrilateral security dialogue facing india a comprehensive study of the changing geopolitical and geostrategic environment of the indo pacific region the book will be an essential Guide read for scholars and researchers of international relations global politics foreign policy maritime studies chinese studies south asian studies geopolitics and strategic studies the great game sheds new light on asia Guide s political influence on russia at the turn of the twentieth century winner of the choice outstanding academic title of the choice acrl the great game 1856 1907 presents a new view of the british russian competition for dominance in central asia in the second half of the nineteenth century evgeny sergeev offers a complex and novel point of view by synthesizing official collections of documents parliamentary papers political pamphlets memoirs contemporary journalism and guidebooks from unpublished and less studied primary sources in russian british indian georgian uzbek and turkmen archives his efforts amplify our knowledge of russia by considering the important influences of local asian powers ultimately this book disputes the characterization of the great game as a proto cold war between east and west by relating it to other regional actors sergeev creates a more accurate view of the game s impact on later wars and on the shape of post world war i asia the demise of the soviet union and the U emergence of independent republics have had profound implications for the regions on its periphery such as the caucasus and central asia this book explores the complex ways in which these republics have found both independence and a new regional identity in their relations with the neighbouring middle east in january 1996 the u s army war college s strategic studies institute ssi and the center for strategic and international studies csis hosted a conference on asian security to the year 2000 one focus of the conferees was the growing relevance of events in central asia perhaps nowhere on the continent was the cold war transformation in the security environment more dramatic than in central asia there the sudden retraction of soviet power and decline in superpower competition was rapidly followed by the creation of new states whose prospects for legitimacy development and independent survival were at best uncertain the half decade that has followed the dissolution of the soviet union has not been sufficient time for any of the vast challenges facing central asia to have been addressed definitively nor can we be confident that a stable regional system has coalesced yet the past 5 years have produced an emerging pattern of T relations amenable to tentative analysis that is the task lieutenant colonel dianne smith of ssi undertook for the asian security conference in this monograph she details the complex problems facing the

region and then turns her attention to central asia s evolving security structure by involving the great game analogy she takes the perspective that for this part of the continent it is the nations surrounding the region that will play the primary role in shaping its future although the new central asian nations are participants not pawns in this struggle for influence colonel smith s analysis focuses on the interests and actions of five of those surrounding nations iran pakistan india russia and china each has significant interests in central asia and each thus far has tempered to some degree its actions to advance those interests in recognition of the competing objectives of the others for the united states a power vacuum in central asia seems a remote concern at first blush colonel smith s review makes clear however that the paramount american stake lies in helping to ensure that central asia does not become a game gone bad that draws the great asian powers into conflict her survey concludes with policy recommendations toward that end this book looks at the emerging power dynamics in the indo pacific region and locates india and its interests within the overarching geostrategic framework with us and china emerging as leading players within the region the book analyses the challenges to india s foreign policy in the face U of new alliances counter alliances and great power equations that have formed after the cold war it discusses important issues such as china s strategic forays in the indian ocean the balance of power between countries india s act east opportunities russia s re engagement in the region the south china sea dispute india s maritime strategy and the conundrum of the quadrilateral security dialogue facing india a comprehensive study of the changing geopolitical and geostrategic environment of the indo pacific region the book will be an essential read for scholars and researchers of international relations global politics foreign policy maritime studies chinese studies south asian studies geopolitics and strategic studies proceedings of the central asia symposium the new great game chinese views on central asia held at Guide monterey during 7 11 august 2005 china and india growing interests in central asia disrupt the traditional russian u s great game at the heart of the old continent At though for the moment india is unable to equally compete against the chinese presence in post soviet central asia new delhi is well established in afghanistan and has begun to cast its eyes more markedly toward the north to the shores of the caspian sea in the years to come both asian powers are looking to redeploy their rivalry on the central asian and afghan theaters on a geopolitical but also political and economic level in january 1996 the u s army war college s strategic studies institute ssi and the center for strategic and international studies csis hosted a conference on asian security to the year 2000 one focus of the conferees was the growing relevance of events in central asia perhaps nowhere on the continent was the cold war transformation in the security environment more dramatic than in central asia there the sudden retraction of soviet power and decline in superpower competition was rapidly followed by the creation of new states whose prospects

for legitimacy development and independent survival were U at best uncertain the half decade that has followed the dissolution of the soviet union has not been sufficient time for any of the vast challenges facing central asia to have been addressed definitively nor can we be confident that a stable regional system has coalesced yet the past 5 years have produced an emerging pattern of relations amenable to tentative analysis lieutenant colonel dianne smith of ssi details the complex problems facing the region and then turns her attention to central asia s evolving security structure by involving the great game analogy she takes the perspective that for this part of the continent it is the nations surrounding the region that will play the primary role in shaping its future although the new central asian nations are participants not pawns in this struggle for influence colonel smith s analysis focuses on the interests and actions of five of those surrounding nations iran pakistan india russia and china each has significant interests in central asia and each thus far has tempered to some degree its actions to advance those interests in recognition of the competing objectives of the others for the united states a power vacuum in central asia seems a remote concern at first blush the struggle between russia and great britain over central asia in the nineteenth century was the original great game but in the past quarter century a new great game has emerged pitting america against a newly aggressive russia and a resource hungry china all struggling for influence over one of the volatile areas in the world the long border region stretching from iran through pakistan to kashmir in great games local rules alexander cooley one of america s most respected central asia experts explores the dynamics of the new competition over the region since 9 11 all three great powers are pursuing important goals basing rights for the us access to natural resources for the chinese and increased political influence for the russians but central asian governments have proven themselves powerful forces in their own right establishing local rules that serve to fend off foreign involvement enrich themselves and reinforce their sovereign authority cooley s careful and surprising explanation of how small states interact with great powers in this vital region greatly advances our understanding of how world politics actually works in this contemporary U era
