show senior managers how to apply advanced strategic sourcing to significantly improve your supply chain's efficiency, effectiveness, and sustainability. Drawing on their cutting-edge research, Yusen Xia and Walter I. Wallace help you go beyond mere cost cutting and contract management to redesign and orchestrate your entire multi-tier supply chain. Wallace and Xia present powerful case studies and lessons from UPS, Coca-Cola, Home Depot, Shaw Industries, and other pioneers. You'll learn how to bring together the multiple business disciplines whose work impacts sourcing and procurement, use strategic sourcing techniques to create a more sustainable supply chain, integrate the use of emission permits into your strategic sourcing programs, manage procurement when the cost of raw materials fluctuates widely, effectively utilize financial hedging in strategic sourcing, deepen your understanding of contemporary buyer-supplier relationships, implement strategic lead time management, increase visibility as a way to become more demand-driven, take advantage of recent advances in e-sourcing and e-procurement, more effectively manage risk and uncertainty in your supply network, make better outsourcing/insourcing decisions in global supply chains, and more.

If you're a senior manager who wants to transform sourcing and procurement into a key competitive differentiator, this book will help you deliver the goods you can't afford not to change. Are you specifically expressing cyber security requirements to your partners, suppliers, and other third parties? How is communication between your organization and suppliers? What business competencies do you currently possess that could be useful to the BRM role? How is the quality of the measures ensured? Defining, designing, creating, and implementing a process to solve a challenge or meet an objective is the most valuable role in every group, company, organization, and department. Unless you are talking about a one-time, single-use project, there should be a process. Whether that process is managed and implemented by humans, AI, or a combination of the two, it needs to be designed by someone with a complex enough perspective to ask the right questions, someone capable of asking the right questions, and step back and say, "What are we really trying to accomplish here, and is there a different way to look at it?" This self-assessment empowers people to do just that. Whether their title is Entrepreneur, Manager, Consultant, Vice President, CxO, etc., they are the people who rule the future. They are the person who asks the right questions to make supplier performance investments work better. This Supplier Performance All-Inclusive Self-Assessment enables you to be that person. All the tools you need to an in-depth supplier performance self-assessment featuring 947 new and updated case-based questions, organized into seven core areas of process design. This self-assessment will help you identify areas in which supplier performance improvements can be made. In using the questions, you will be better able to diagnose supplier performance projects, initiatives, organizations, businesses, and processes using accepted diagnostic standards and practices. Implement evidence-based best practice strategies aligned with overall goals. Integrate recent advances in supplier performance and process design strategies into practice according to best practice guidelines. Using a self-assessment tool known as the Supplier Performance Scorecard, you will develop a clear picture of which supplier performance areas need attention. Your purchase includes access details to the Supplier Performance Self-Assessment Dashboard Download, which gives you your dynamically prioritized projects ready tool and shows your organization exactly what to do next.
