*Press \* to Engage* 2014-12-18 becoming lean and fit is not a  
matter of training for a few weeks like rocky to become a  
world champion that only happens in hollywood movies that  
portray professional athletes exercising for hours every day  
until they are exhausted real athletes never do that they train  
only to the point that they can recover for the next day s  
training their progress comes in small increments not heroic  
triumphs unfortunately movies have persuaded people that  
they can become lean and fit virtually overnight even the  
weight loss and fitness industry bought into this distortion and  
began pushing people to become like rocky when that  
approach failed because people were injuring themselves or  
burning out or jumping from one program to another trainers  
began to entertain their clients instead of finding solutions to  
their problems if you want to become truly lean and fit you  
must work at it like an athlete following a structured routine  
and that is easier and more pleasant than you may expect the  
principles that work for athletes also work for ordinary people  
of all ages athletes of course have coaches the happy body  
program on the other hand will teach you everything you  
need to know to be your own coach this innovative program  
establishes for the first time exact scientific and testable

methods and goals to engineer your own weight loss and fitness within precise time periods that empowers you to self correct your progress at every step the happy body is a total health program not just an exercise or diet plan it will teach you to safely lose 10 to 25 pounds every week and keep them off without getting stuck at plateaus you will have full control over the process right down to the ounce in addition to teaching you how to lose weight the program will also help you to restore the flexibility and posture you had as a young child and to be leaner stronger and faster than you have ever been in essence the happy body program will not only make you as youthful as you were at twenty but twenty as you would have been if you had followed the program at that age
