captured the imaginations of curious minds around the world it's an ordinary thursday lunchtime for arthur dent until his house gets demolished the earth follows shortly afterwards to make way for a new hyperspace express route and his best friend has just announced that he's an alien at this moment they're hurtling through space with nothing but their towels and an innocuous looking book inscribed in large friendly letters with the words don't panic the weekend has only just begun this 42nd anniversary edition includes exclusive bonus material from the douglas adams archives and an introduction by former doctor who showrunner russell t davies continue arthur dent's intergalactic adventures in the rest of the trilogy with five parts the restaurant at the end of the universe life the universe and everything so long and thanks for all the fish and mostly harmless from douglas adams the legendary author of one of the most beloved science fiction novels of all time the hitchhiker's guide to the galaxy comes a wildly inventive novel in trade paperback for the first time of ghosts time travel and one detective's mission to save humanity from extinction quirky and bumbling private investigator dirk gently stumbles Where upon a ghost millions of years old wandering the earth and disturbing its people dirk soon discovers this phantom yearns for more than a good haunting it is desperately trying to go back in time to prevent its own death but this ghost was no ordinary person and helping it save itself just might change the modern world as we know it and not in a good way endlessly entertaining dirk gently's holistic detective agency proves that indeed few writers have had such an infectious prose style as adams the observer as dirk gently tries to solve the mysteries of the universe and the human soul readers will have their own mystery to solve where did the time go with an introduction by david mitchell isserley spends most of her time driving but why is she so interested in picking up hitchhikers and why are they always male well built and alone an utterly unpredictable and macabre mystery under the skin When is a genre defying masterpiece driving with strangers is an It ambitious timely and intellectually eclectic contribution to how we think about mobility the rationale behind its different forms and why our philosophy of travel and societal structures are closely related the book uses a century of hitchhiking across contrasting national contexts to understand the relationship between sharing the road political economy and social structure purkis offers a vagabond sociological perspective which explores power within a society as seen from the kerbside this is outlined using a series of theoretical touchstones central to the history of hitchhiking relative levels of freedom trust human nature gift or experience based economics risk cooperation empathy and ecology drawing on progressive sociological and critical anthropological traditions the book builds a different vision of social structures political economy and human capability to help empower those fighting ecological apocalypse and societal breakdown in science fiction and extro science fiction quentin meillassoux addresses the problem of chaos and of the constancy of When natural laws in the context of literature with his usual argumentative rigor he elucidates the distinction between science fiction a genre in which science remains possible in spite of all the upheavals that may attend the

world in which the tale takes place and fiction outside science the literary concept he fashions in this book a fiction in which science becomes impossible with its investigations of the philosophies of hume kant and popper science fiction and extro science fiction broadens the inquiry that meillassoux began in after finitude thinking through the concrete possibilities and consequences of a chaotic world in which human beings can no longer resort to science to ground their existence it is a significant milestone in the work of an emerging philosopher which will appeal to readers of both philosophy and literature the text is followed by isaac asimov's essay the billiard ball you may not have noticed but there's something stirring in the galaxy despite the efforts of the vogons and even those of a more than typically troubled teenager the increasingly inaccurately named hitchhiker's trilogy continues much to the delight of its fans and to the annoyance of the vogons and another thing the 6th book in the hitchhiker's trilogy or rather double trilogy as it has now become is to be written by the brilliantly funny eoin colfer international number one bestselling author of the artemis fowl novels colfer is not unaccustomed to strange going ons and far fetched story lines with his celebrated artemis fowl novels widow jane belson said of eoin colfer i love his books and could not think of a better person to transport arthur zaphod and marvin to pastures new douglas adams himself once said i suspect at some point in the future i will write a sixth hitchhiker book five seems to be a wrong kind of number six is a better kind of number colfer a fan of hitchhiker since his schooldays said i have decided to embark on a very different project something unique that i hope will interest you as much as it does me i have written the official 6th book in the hitchhiker's guide to the galaxy series most of you have probably already read douglas adams insanely brilliant space series if you haven't then you don't know funny take it from me the hitchhiker books are bar none the It funniest sci fi books ever written people have laughed so much reading hitchhikers that they have had to have organs removed one guy in france popped an eyeball i kid you not so what's it all about this hitchhikers i hear you cry actually i don't hear you if i did i would be sitting outside in your driveway which would be a bit freaky and show how few friends i have what's it all about this hitchhikers i imagine you cry it's about arthur dent one of the last humans left alive after the earth has been destroyed by the remorseless vogons arthur manages to hitch a ride on a spaceship and go planet hopping with his friends ford prefect the betelgeusean journalist zaphod beeblebrox the two headed president of the galaxy pirate and worst dressed man in the universe and marvin the paranoid andriod all this hitching and adventuring went on for five books and then douglas adams passed away before he could write book six hitchhiker has been heard on radio seen on tv and enjoyed on the cinema screen there was even a musical version but the story could never end until now i am going to continue on where douglas left off unfortunately for me he left off on rather a large cliffhanger everyone was dead which means i have rather a large challenge ahead of me but it is one i am looking forward to i really hope you will board the spaceship with me so we can travel through douglas adams hilarious
